

# IME WEST 2022 SNAPSHOT

April 12th–14th, 2022 | Anaheim CA, USA

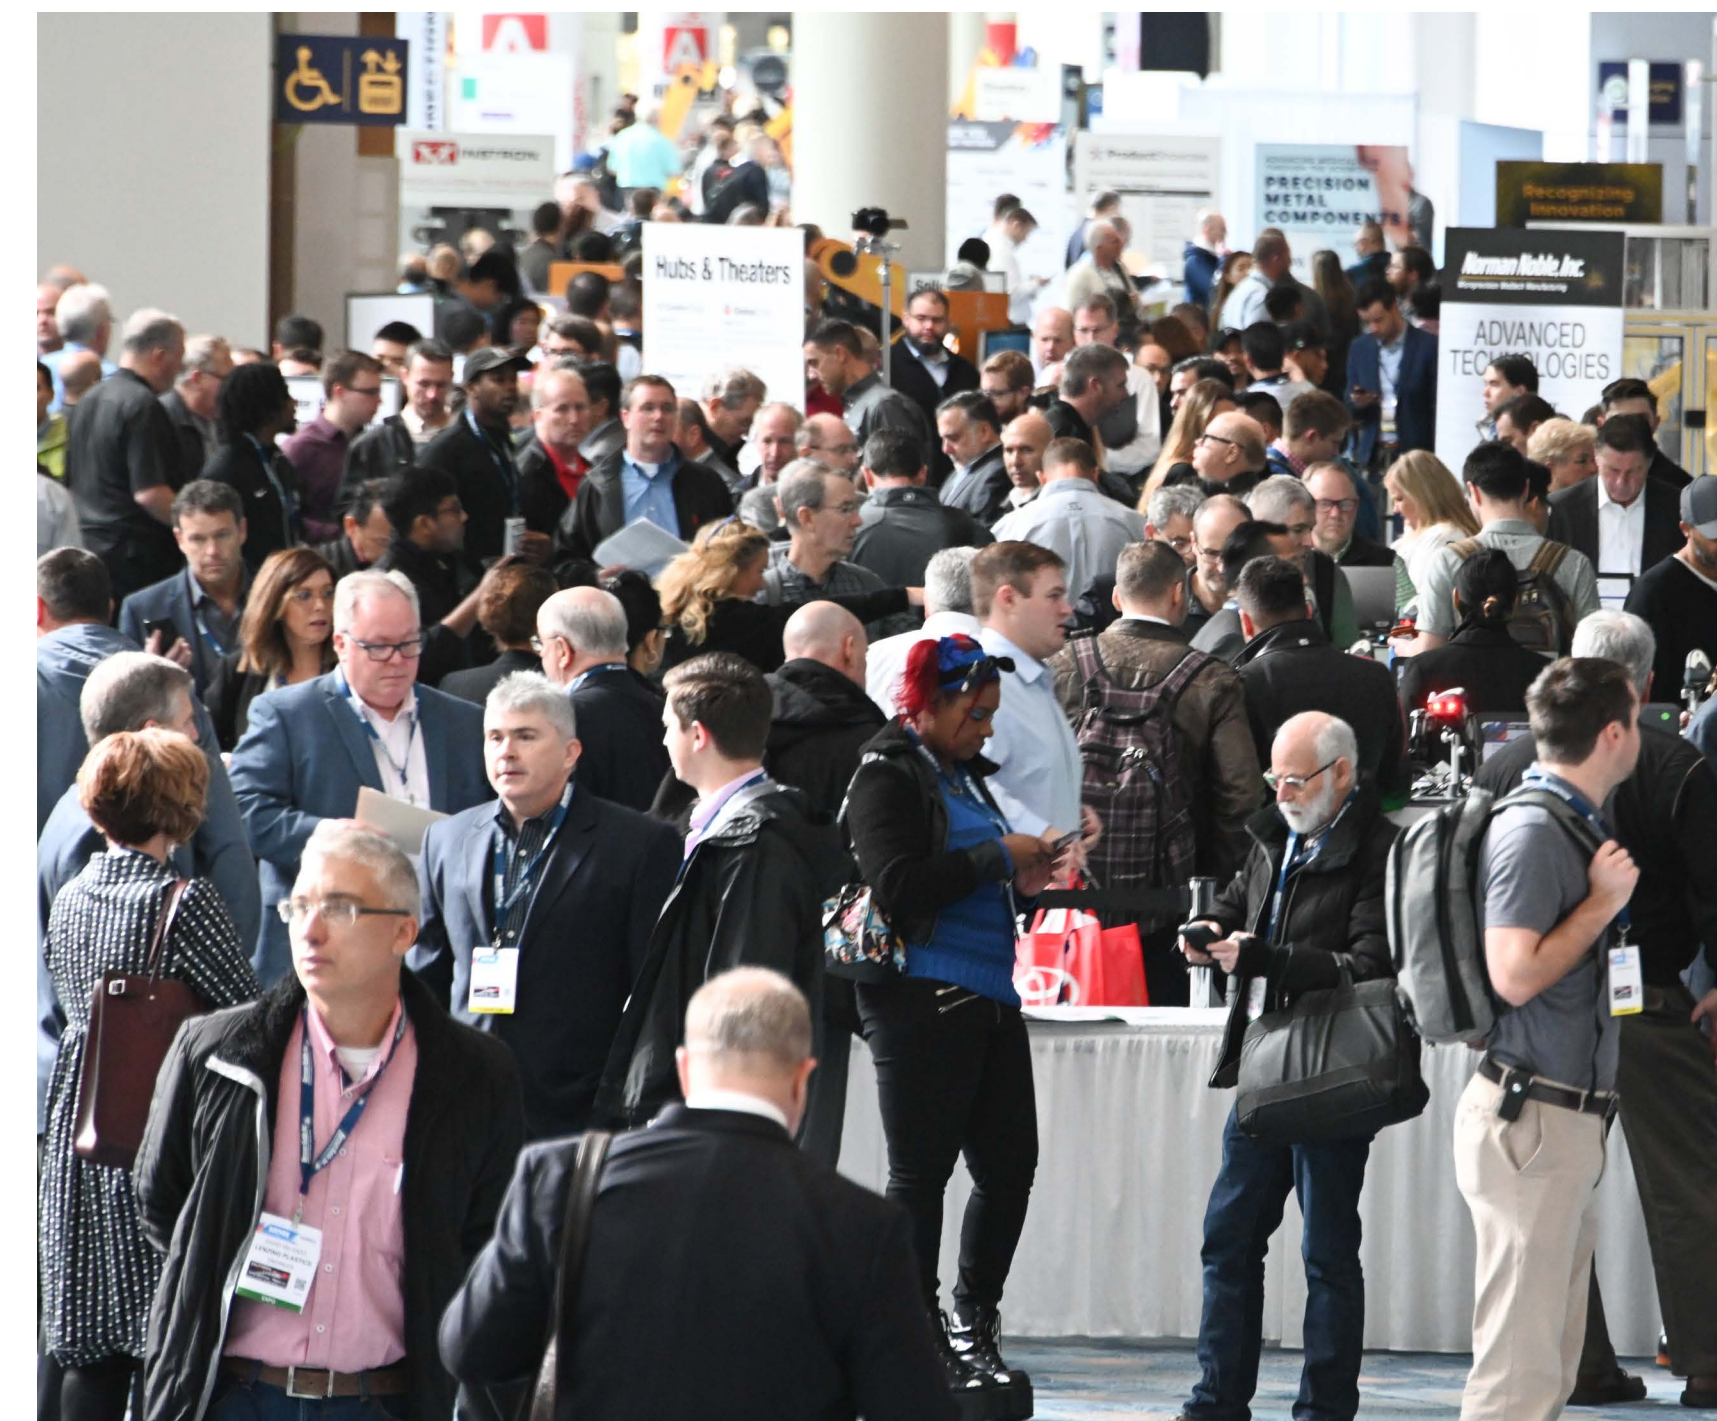

# THE PREMIER ADVANCED MANUFACTURING EVENT IN THE US.

Discover the latest insights on technology for your products lifecycle at the largest annual design and manufacturing event in North America. Explore all five trade shows that share the expo floor. From medtech and robotics to packaging, design plastics and quality. Our five-in-one design and manufacturing event connects you across multiple verticals and industries.

The three day event brings in over 1,400 exhibitors and over 11,500 highly qualified attendees, with 50% of them holding a C-suite level or executive-level position with purchasing power.

This is a show you can't afford to miss.

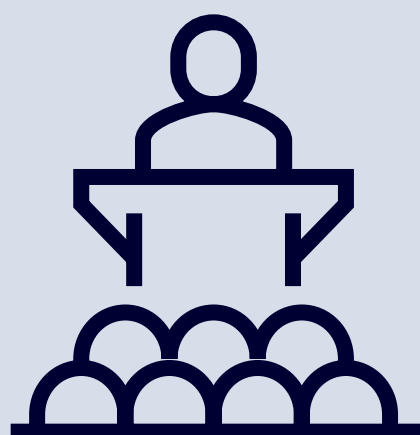

# SHOW FEATURES IN 2022

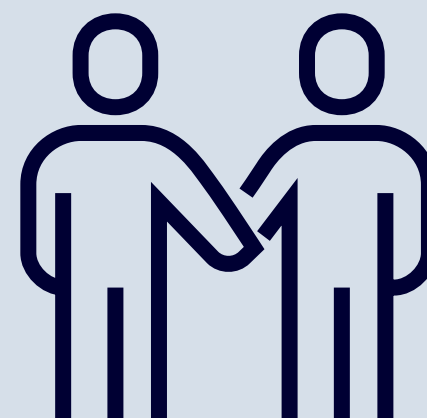

**Expert-led educational conference sessions that focused on critical and timely themes, including:**

- The Design. Engineer. Build. Conference
- Cannabis Packaging Conference

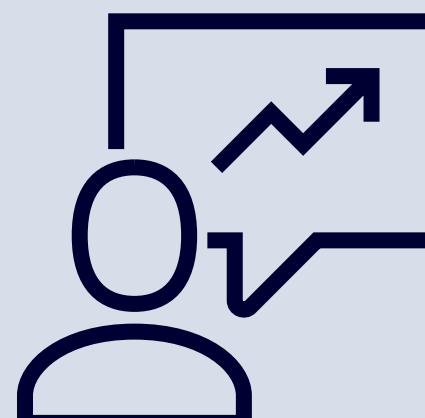

**Two powerful keynote presentations:**

- “Using Technology to Fill Manufacturing Workforce Gaps”, hosted by Jay Douglass, COO, ARM
- “Can Manufacturers Rebuild the Broken Global Supply Chain?” featuring a Keynote Panel, Berardino Baratta, VP, Projects & Engineering, MxD; Leiva, VP of Ecosystem and Workforce Development, CESMII, Chair of the Smart Manufacturing Working Group, MESA International; Kimberly Gibson, Ecosystem Director, America Makes; Jeff Brown, VP of Operations, Sonendo

**Onsite activities that allowed attendees to choose from a variety of networking and interactive sessions, including:**

- Keynote Networking Breakfast
- Booth Crawl
- Welcome Reception
- Beer Garden Happy Hour
- Battle of the Brick Bots Competition

**Free educational sessions at the Expo that gave attendees the opportunity to explore new market trends and discover the latest insights at:**

- Center Stage
- Tech Theater
- Design Alley

**IME West’s Smart Event. From Smartphones to smart manufacturing this advanced digital component expanded the capabilities of our technology, and also allowed for extended networking and education time before and after the event. Online resources include:**

- Exhibitor profiles
- Virtual meeting features
- Exclusive, limited-time-only content
- Downloadable white papers and product information
- A selection of recorded presentations and much more

## Top Areas of Interest

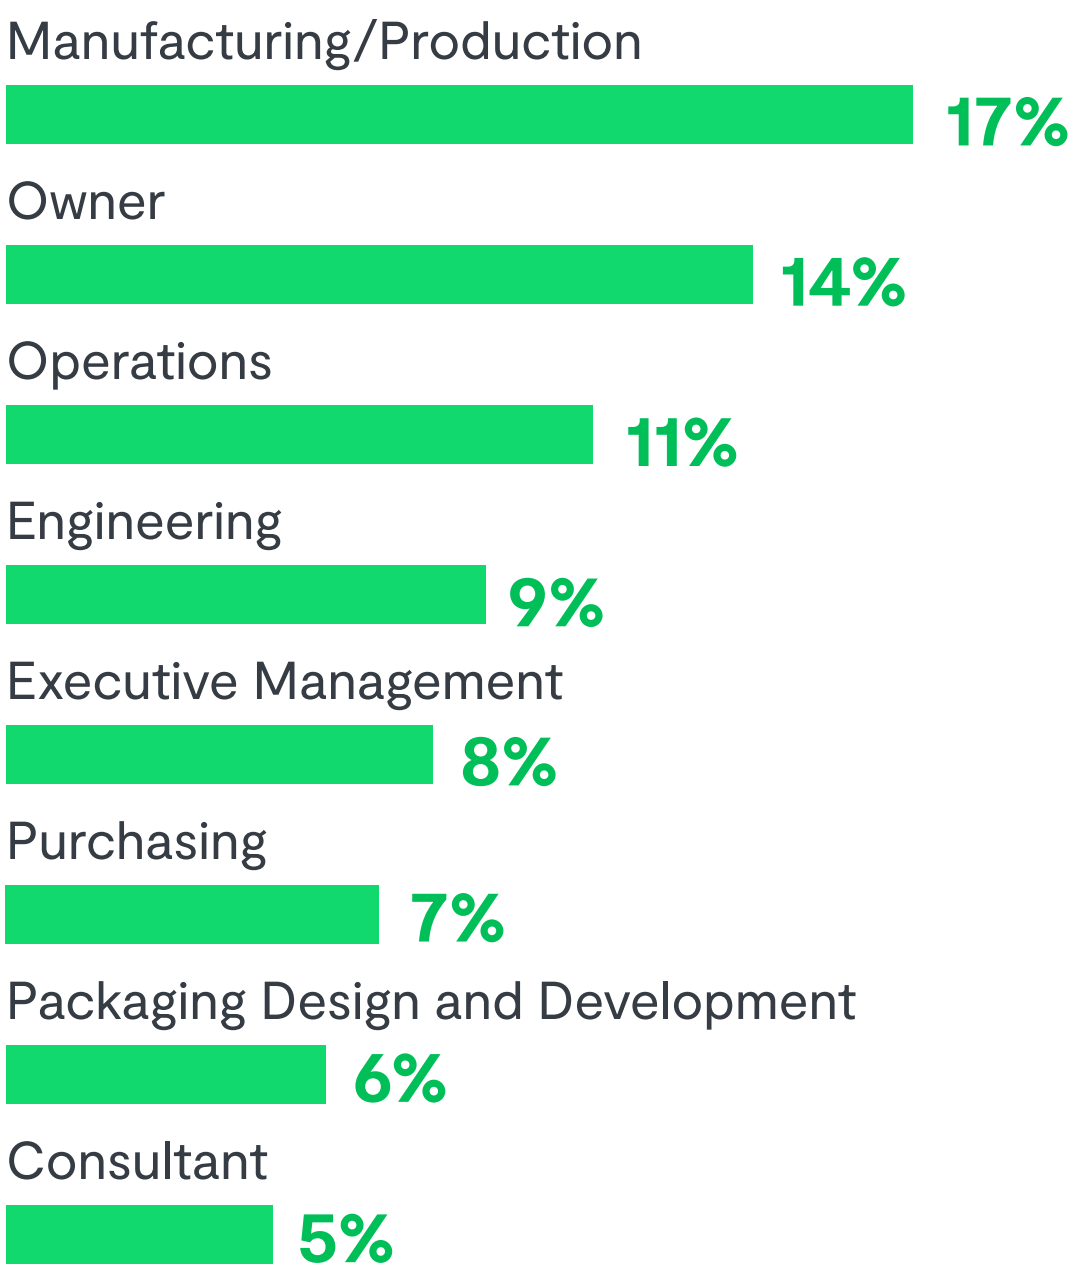

## Top Attending Companies

Abbott | Apple | BASF | Callaway Golf | Johnson & Johnson | Logitech |  
Niagara Bottling | Nike | Oakley | Scott's | The Toro Company

# DON'T JUST TAKE OUR WORD FOR IT!

## Here's what our exhibitors had to say...

It's the most important medical device show in the US.

The event was wonderful! There are plenty of quality leads and new connections looking for manufacturing solutions!

West is the biggest and the best manufacturing event in the US.

It is really very helpful for our business, we gain attraction and acquired customers. I would recommending the event to our business partners.

It was an extremely good event for our company and it is the best Medical show in the US for us to exhibit, which is why we doubled our booth space this year.

This trade show (the West Version) always has the biggest turn out and the most quality leads. It also captures the full scope of manufacturing and allows us to touch base with other businesses to understand how we can partner up.

It is a great way to meet new customers and suppliers. A way to put a face to a name and to bond while listening to their needs and requirements. With everything being in one location, it made it very easy to conduct business and to meet and greet future customers.

## Here's what our attendees had to say...

Well organized event and well attended by industry exhibitors. High value event for our medical device start up!

The quality of speakers and educational seminars provided significant tools. The time invested to attend yields a strong ROI.

The combination of MD&M, ATX, D&M, WestPack and Plastec allowed for easy cross-disciplinary exploration and ideation for current and future projects. The large number of vendors in attendance made multi-day attendance highly valuable.

It's very useful for learning about new regulations and technology on the market and getting connected with companies and suppliers that you wouldn't normally be able to find.

It's a well represented show with a large cross section of suppliers. If you could only attend one show this would be the one.

Informa West provides exposure to game changing new technologies, excellent networking opportunities and professional exposure.

Cole Sheedy, Application Engineer with Motion Ai, another exhibiting company, added, "IME West provided Motion Ai with great exposure to new people, ideas, and technology. My biggest takeaway is that the automation industry is exponentially growing and the only way to keep up is by getting started now. Whether it be small projects improving quality of work or big projects involving robot cells, you don't want to get left behind in today's crazy industrial environment."
